The RECORD Group: an unique and exclusive Group.
For those who demand the ultimate of themselves and of their bicycles.

Avant-garde appearance, clean lines, attention to every detail, shapes that are a challenge to the latest technology.

Brakes with a variable leverage, shifting levers with clutch mechanism, chainwheel arm incorporated with the crank:
Campagnolo technology, style and reliability make the RECORD Group the top of the cycle components.

VICTORY: a Group based on racing experience.

To equip prestigious competition bicycles, built to last.

Strikingly modern in appearance, with articulated parallelogram derailleurs, pedals with central axis, single action saddle adjustment.

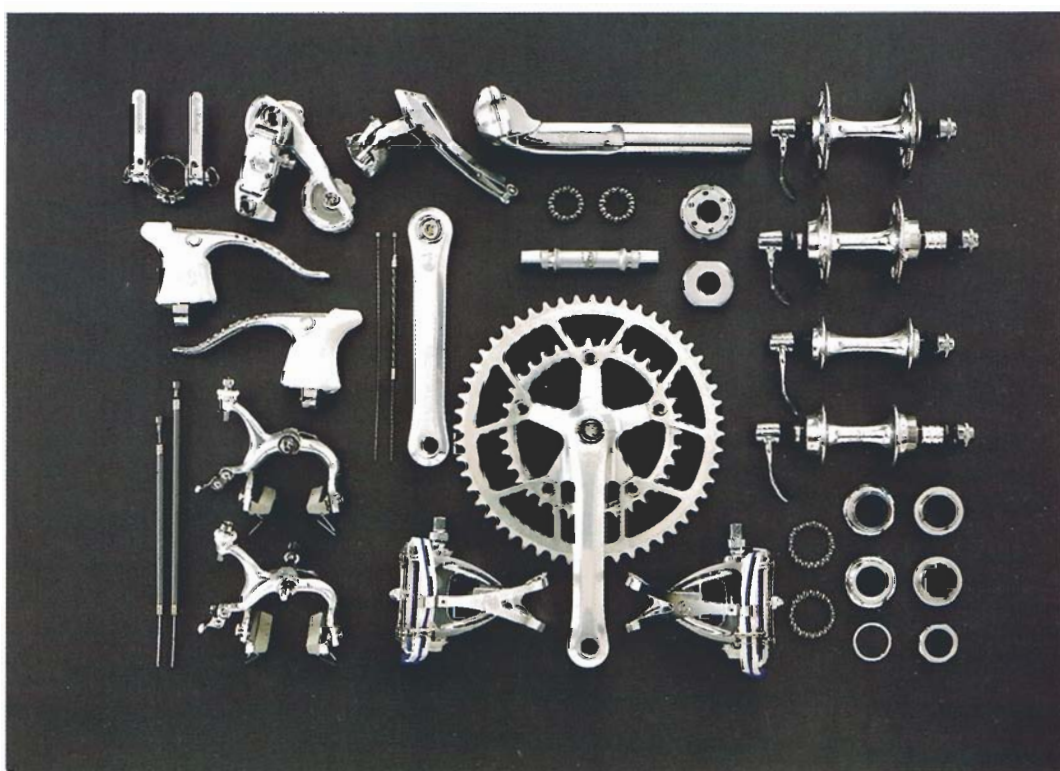

All the classic Campagnolo technical features enhanced in a new Group of winning quality.

leisure

The Leisure version is for those who don't look for ultimate performances in riding, but who still want an exceptionally dependable machine.

VICTORY Leisure: large capacity long-arm changer for a more comfortable ride over hilly terrain.

TRIOMPHE®

GRAN SPORT	•			
TRIOMPHE®	•		•	

TRIOMPHE: Campagnolo technology reaches lots more lightweight racing bicycles.

For a wide open space sport, which is getting younger, year by year, in competition and in enjoyment.

Well tested technical solutions, a renewed tradition, undisputed experience: the TRIOMPHE Group is signed Campagnolo.

leisure

The Leisure version is for cycling enthusiasts who want lower, more "comfortable" gears.

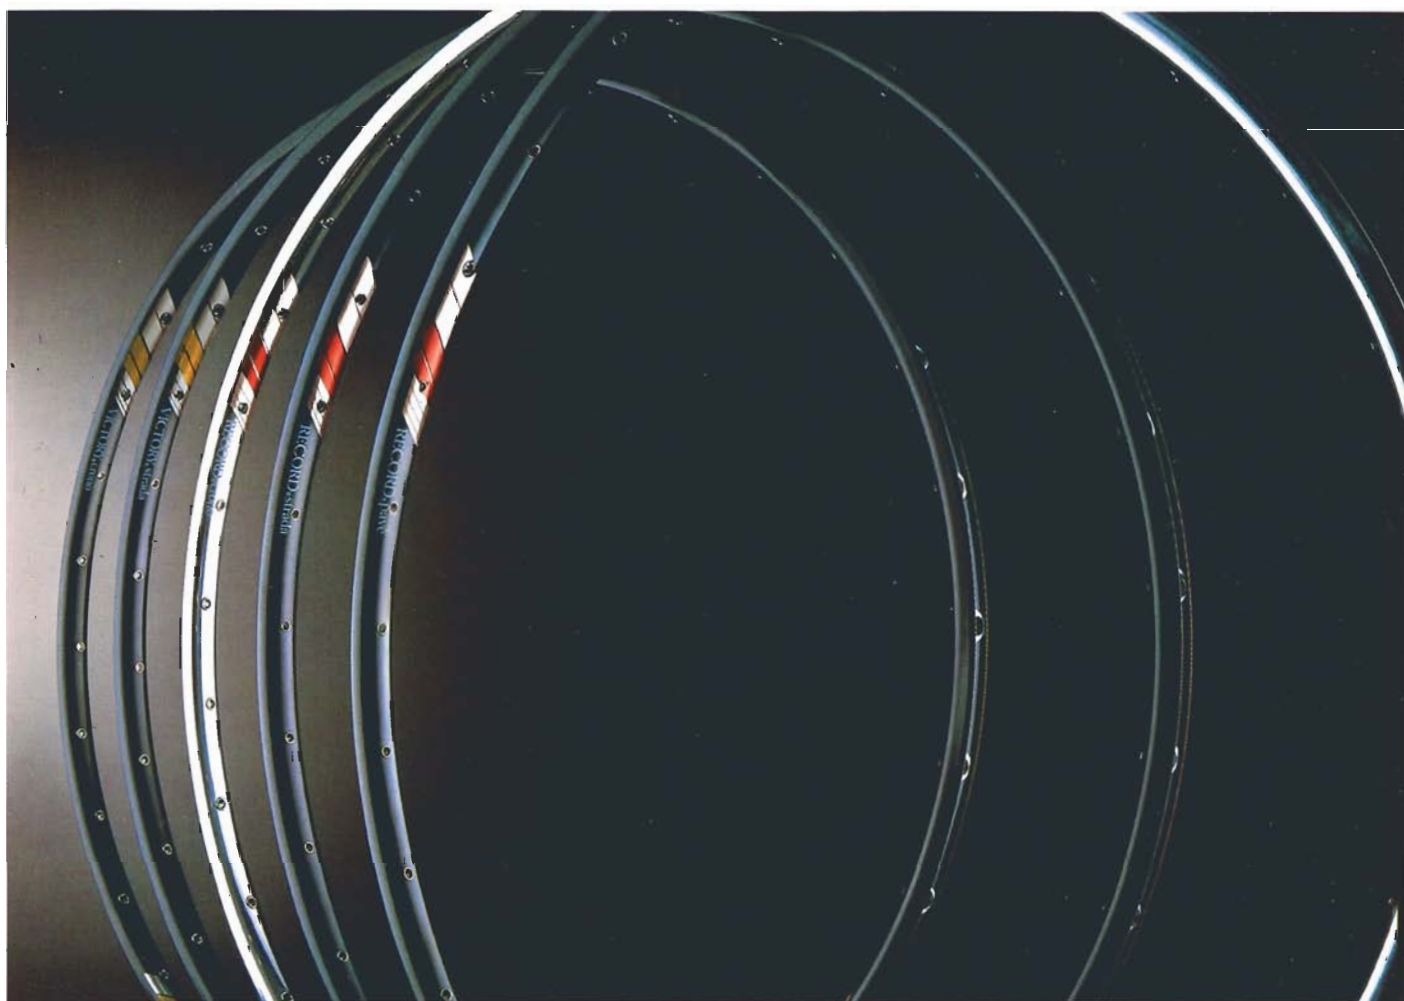

"A TRIOMPHE Leisure bicycle": the bicycle to get on and go, to widen your horizons.

The bicycle one can't stop loving.

Elasticity and rigidity.

Two conflicting needs that have to be brought together in the best rims.

This is the Campagnolo challenge to the former technical limits.

The CERCHIO rim is the winning answer to this challenge.

International patents, advanced alloys, special heat treatments, computer-designed cross-sections, angled double eyelets, micrometric anodisation setting with guaranteed tolerances: all the Campagnolo technology for a perfect geometrical shape.

High impact resistance, high tubular adherence, easy mounting, reduced vibration under braking, minimum spoke wear: all lightness. All Campagnolo.
